

Alexandru Gherman has over 8 years of security experience starting with Mobifon (now Vodafone Romania subsidiary) since 2002 to 2004, Bluespace Software (Transmail product – www.bluespace.com) as a Security Consultant till 2006, ING Life Insurance as an Information Security Administrator till 2007 and as an Information Security Consultant and Solution Architect for IBM Internet Security Systems – Professional Security Services until present.

As an Information Security Administrator at ING Life Insurance Financial Group, he was involved in doing Risk Assessment, with SPRINT methodology (Business Impact Assessment, Threats, Vulnerabilities and Controls Assessments), participated in internal projects with penetration tests, applying and enforcing the compliance with the internal Information Security Policy of the organization.

As a Security Consultant in Bluespace Software he was involved in assessing compliance and security requirements of the Transmail software product (corporate internal messaging), assuring compliance to SOX, ISO17799. He was involved with network security testing and application server security testing. Designed and brought requirements for role-based authorization into the application.

Currently I am involved at IBM Internet Security Systems – Professional Security Services for various customer security requests, offering specific solutions according to customer's needs. I am an experienced Information Security Professional with almost 10 years of experience. I possess a very strong technical background uniquely combined with proven business development and presales experience. I have worked in both small start-ups and large enterprise organizations bringing security and IT professional services.

Understanding the customer is a MUST. A "Can't do" is something i do not accept.
